

Issue No. 110 August-September 2015.

We will try to produce this bulletin on a regular basis highlighting policies and events that influence our lives but are dictated by corporate institutions and governments beyond our control. If we, the ordinary people desire a world for all our children, we must resist, organise, and take control.

REFORM YOUR CELL, OR BREAK FREE??

When do the people of the world wake up to the fact that reform is impotent against capitalism. We have had a couple of centuries of reformists, and we have reformed ourselves into austerity, increasing poverty and deprivation. Reformists failed to stop brutal wars, where the ordinary people paid the full price in millions of unnecessary deaths. Reformists have lead us to this present state, where corporate capitalism, hand in hand with the financial Mafia, control the world. Our history has writ large in letters of struggle and misery, capitalism, like a viral epidemic, can't be reformed, it has to be destroyed. Social democracy, representative democracy, born in the womb of capitalism is a still born child. A prisoner in a cell, who is allowed to discuss some improvements to his cell, is still a prisoner in a cell.

We have to stop assessing our every situation in the language of economics, stop measuring our future by means of growth. We have to see the profit motive as one symptom of the viral epidemic of capitalism. All of these, are the tools of the exploiter, to use them is to tie your own hands in the face of your enemy. A new world requires a new language, the language of needs, of mutual aid, co-operation and sustainability. None of these can survive in the belly of capitalism, no amount of reform will make them grow and flourish in a system based on personal greed and exploitation.

THE CULL OF THE DISABLED CONTINUES.

MAXIMUS, Latin for "greatest" or "largest", greatest or largest what? When applied to Maximus, the company that has taken over Work Capability from ATOS, it probably means the greatest or largest piece of shit to land on our shores. ATOS was responsible for carrying out the governments attack on the disabled by means of the Work Capability Assessment, they had to withdraw due to the bad publicity brought to the public's notice by a determined group of people, the "Anti-ATOS" campaign. ATOS has gone, but the savagery of the Work Capability Assessment still ravages the vulnerable, needy and disabled in our society. The new executioner of the government's cull of the disabled is Maximus, a company that was found guilty of massive fraud against the US government, disability, race and gender discrimination, forced to pay millions of dollars in compensation for botched IT projects, and fined for improper expense claims.

The government obviously doesn't care about the competence or track record of the company they put in charge of the assault on the disabled. What matters to our millionaire cabal in the Westminster House of Hypocrisy and Corruption, is that their chosen hit-men will ruthlessly carry out their dictate, at the lowest possible price.

Maximus must be driven out of this contract, just like their predecessor ATOS, the Work Capability Assessment must be made unworkable, the disabled must be treated with compassion, dignity and justice, this will not happen under the watch of Maximus.

A dedicated group turn up at the offices of Maximus, the last Friday of every month (except holidays) to voice their opposition to this indignity heaped on our disabled. They need our support and solidarity. If you have any time please show up on the last Friday of every month, between 12:30pm and 2:00pm, stay for a while, show your revulsion at a system that humiliates and traumatises the disabled, in the name profit for Maximus and austerity.

HELPING GOVERNMENT SERVE RICH PEOPLE®

MIGRANTS, PEOPLE JUST LIKE YOU AND I.

The migrants at Calais are getting a lot of publicity from our babbling brook of bullshit, the mainstream media, never is that publicity the human face of ordinary people. We are exposed to pictures of primitive conditions in "the jungle", shadowy figures scurrying about in the dark, trying to get a free ride on a truck, or breaking through fences. No attempt is made to show them as ordinary people like you and I, they "swarm", according to Bullingdon boy Cameron, they are an inconvenience to our businesses, they cause delays to our travel. Never are they people fleeing deprivation, war and brutality, trying get a decent life for themselves and their families. Never are they ordinary people fleeing the cauldron of chaos and savagery spawned by the foreign policy of Western imperialism in their home region. Heaven forbid that they should ever be seen as desperate human beings in need of help.

STOP THEM DIGGING UP POLLOK ESTATE.

Once again our public spaces are under attack. Once again Pollok Estate is being targeted. There was the motorway, then "Go Ape" theme park, now it is to be dug up with replicas of WWI trenches. Why a beautiful public space such as Pollok Estate should even be suggested for this lottery funded love affair with war is incomprehensible. Are those involve blind, stupid or just bribed? Look around, if you want such a hideous theme as war trenches stick them in somebody's private land, not our beautiful country space in our city. This has to be stopped as we will see another public space place of beauty an tranquillity disappear to the glorification of war.

This cannot be the site for war trenches.

Pollok Estate is not a commercial theme park, it is not a site for developing crazy war linked projects, it is a wonderful country space in the city owned by the people of Glasgow. This has to be stopped before the diggers move in and destroy another slice of our commons. We stopped GO Ape, surely we can stop this destructive, brainchild of the city council and academia.

TOMORROW IS OURS.

The people of Chile have had brutality heaped on them for generations, from the CIA's, (Capitalism's Invisible Army) coup, that installed the butcher Pinochet, through the neo-liberal/free-market policies forced down the throats of the people by the American financial Mafia. However, like people the world over, they take only so much, and then they start to kick back. You will not find much about the struggle of the people of Chile in our babbling brook of bullshit, the mainstream media. No, they are much too pre-occupied with more important things such as royal babies, sporting spectacles, and hyping up hate against those poor and vulnerable on benefits.

The struggle by the people in Chile is just one part of a growing world wide hatred of this insane system of exploitation of the majority, by the rich few. A growing awareness that we can change things, and create a better world for all. We have the power, and when we come together, we are unstoppable. This world belongs to us, from the bricks to the mansions, from the bicycles to the cargo ships, we made them all, we can surely decide how we will use them.

WESTERN IMPERIALIST AND CHAOS.

Who the hell knows what is going on in the Middle East? It is difficult to get accurate information from our babbling brook of bullshit, the mainstream media. Meanwhile, in our confusion thousands of ordinary innocent people die a brutal death, and thousands more are maimed and traumatised. However, you can rest assured that what is going on is no accident, no trick of fate, no streak of misfortune, but the direct result of planned actions by power hungry states and their psychopathic leaders, imperialist and religious nutters. As far as the Western imperialists are concerned, chaos in that region suits them, while the blood flows, creating divisions between the people, the area's resources are there for the plundering. Strong governments in that region doesn't suit the powerful Western imperialists, much easier to rape and plunder a land while it is in chaos. Perhaps the greatest misfortune to befall the people of that region is the fact that they are living on top of rich deposits of oil and gas, desirable commodities of the imperialist class. Turkey is playing the usual state power and politics game with the lives of the people, as it oscillates between supporting ISIS and bombing ISIS. Not through any change in its approach to humanity, but simply a desire for power.

WHERE ARE THE PITCHFORKS??

Well our "Lords and masters" are beginning to show their true colours. What a load of two-faced, corrupt, self-gratifying weasels, sitting there in their ermine, pontificating on standards, and legislating how we should behave. Then scurrying off to spend the money we pour over them, in all manner of under the table activities.

Lord Sewel, Lord Janner, Sir Peter Hugh Morrison, Sir Peter Hayman, Sir William Van Staubenze, Leon Brittan, just a few of the parasites who have been exposed. The whole establishment embedded in that edifice to power and privilege, The Westminster Houses of Hypocrisy and Corruption is riddled with unearned privilege, financial fiddling, perks, winks and nods, and back handers. Now another dead suspect is added to the list, as the police want to look at some of the alleged hobbies of Ted Heath.

The only vision that goes through my head when I think of this cesspool and its putrid inhabitants, is people and pitchforks, but then, that's just my vision.

This is not a painting from before the French revolution, this is today in austerity UK

WE SWIM IN THE VOMIT OF CORRUPTION

We should all know by now that we live under the vomit of a stinking corrupt system controlled by the financial Mafia. Greece immediately comes to mind, a country where they brought to bear the full venom of their power, to overthrow the government and destroy the social fabric of the country. After five years of "austerity", which translates as poverty and deprivation for the people and the plundering of the country's assets, they have now being shackled to a perpetual regime of higher taxes, lower pensions, more unemployment, a worsening of working conditions and greater plundering of the country's assets. All this in an attempt to protect the financial Mafia's phoney house of cards balance sheets.

The financial Mafia and national governments usually work hand in hand, to the benefit of the banksters, as they always hold the upper hand. When a government doesn't play to their rules, it, and its people are destroyed, Greece for example.

There is never a time, now or in the past, when these banksters, working for the financial Mafia, have got involved in a country to the benefit of the people. Everything they touch, create or modify, is to the detriment of the people and riddled with greed and corruption. From Africa, to South America, Europe to Asia, their poison has ravaged through the lives of the ordinary people, creating poverty, deprivation and wars. Just a thought, if the banks are too big to fail, they should be owned and organised as a public utility.

POWER AND FREEDOM ARE INCOMPATIBLE

The attack on anarchists by states, across the capitalist world, continues unabated, from Spain to Chile, from Mexico to Italy. Those who fight hardest to end this greed driven exploitative system of capitalism, and replace it with a system of co-operation, mutual aid and sustainability, are the ones the states wish to crush. They are the greatest threat to their ill-gotten power and wealth.

QUOTE:

“Anarchism, really stands for the liberation of the human mind from the dominion of religion; the liberation of the human body from the dominion of property; liberation from the shackles and restraint of government.”

PRIVILEGE AND CORRUPTION, HANDMAIDENS OF POWER.

So the vile paedophile child abuse in "high" places keeps trickling out. It seems another overlooked file has been found, giving us four names. Of course they are all dead, it would seem that we only discover "mislaidd" files after the people concerned have died. The names of the four in this "recently discovered" file are former Cabinet minister Leon Brittan, Peter Morrison, who was an aide to Margaret Thatcher, ex-diplomat Sir Peter Hayman and former minister William van Straubenzee. Hayman, Morrison and Brittan were all products of the Oxbridge sausage factory, while Straubenzee was from that other establishment where rich people dump their kids, The Royal College of St. Peter in Westminster. This establishment was recently in the news regarding one of its senior teachers and sexual abuse of pupils. Wikipedia has lots of information on all four. Now we can add a new name to the list, of course he is also dead, Sir Ted Heath. We learn that four police forces are all looking into what might be described as his alleged under the table hobbies.

So, as they say in certain places, there's no smoke without fire!! Of course all dead, are we offered up these morsels of depravity in an attempt to create the impression that all the bad men are dead, and the living group of parasites are all squeaky clean? We do have one living member of that bunch of corrupt hypocrites named, one Lord Janner, however, he is stated to be too sick to stand trial.

These are the people who decide what shape our lives should take, from their gilded cage, these privileged, corrupt parasites dictate the quality of our lives, while abusing some of our most vulnerable children, (allegedly). We give them the power over our lives, we are governed by our consent, we can withdraw that consent, and they are powerless. When do we start.

LIFE WITHOUT GOVERNMENT.

Anti-parliamentarians can give a little sigh of relief, the reason being, the Westminster Houses of Hypocrisy and Corruption are empty. Admittedly it is not a permanent feature of the place, just the summer recess. From the 21st. July-1 7th. September, we get a break from the hee-hawing, hear, hear, parasites, chuckling and giggling in the UK's most exclusive establishment club. In place of the farce we call Parliament, the babbling brook of bullshit, the mainstream media, will have to find other trivial bullshit to spew out. Meanwhile, most of the "Honourable" members, will be taking themselves off to their holiday homes enjoying their ill-gotten gains.

Of course though we are bereft of a government for a couple of months, what will continue is the poverty, the food banks can't take a recess. Children will still go hungry, those on benefit will still have to juggle their pittance in an attempt to survive. Those on workfare will still have to turn up and do their stint of slave labour for some rich corporate greed machine.

Wouldn't it be wonderful if, during the spell without government, we took control of our lives, sending all "Honourable Members" a P45 insisting they report to the nearest job centre, as their services are no longer required. I know we could do a better job of seeing to the needs of our people, than a bunch of rich hypocritical parasites, most of whom are riddled with corruption. They may not all be rich when they enter that cesspool, but they are by the time they leave. Can you say that about any other job open to you?

GDP AND ALL THAT CRAP.

The world of capitalism and debt is a very strange world. Debt as a percentage of your GDP seems to be taken as a bench mark of a country's viability. Hence Greece gets clobbered, plundered and its people driven into deprivation as its debt, 2013, sits at 177% of GDP. Others are not that far behind, Italy is sitting at 132% of GDP with the USA at 105%. The UK, though low as a percentage of GDP is seeing that percentage rise considerably. When the "crisis" hit in 2008, UK debt was 51.9% of GDP, but has now, 2013, shot up to 90.6%, are we heading towards a Greek situation? Another fact we should remember, after the WWII, the UK was bankrupt, but managed to create the National Health service!! We don't hear a lot about Japan but it seems to survive with a staggering debt of 256% of GDP, why? To whom do all these countries owe that debt? If the Greek economy was devastated and plundered with debt of a mere 177% of GDP, does this mean that the world is heading for a "Greek crisis", as the world debt, 2014, was sitting at an eye-watering 286% of the world's GDP. So in this insane capitalist asylum, the world's debt outstrips all its wealth, who are the banksters and financial Mafia that will call this debt in, and turn the world into another present day Greece?

All these crazy figures prove, is that the whole system of capitalism is built on an illusion, a world of shuffling figures, a world where a bunch of people tell us that the world owes more than it is worth, where that bunch of people have the power to destroy an entire country and its people, because we are lead to believe that the illusion is a reality.

The world belongs to us, the people who live on it, there is nobody above us to whom we owe anything. The debt is an illusion by those who produce nothing, in an attempt to enslave those who produce all the wealth on the planet. Let's stop talking economics, and start talking people's needs, let's stop looking at balance sheets, and see to those needs. Let's shatter the illusion of perpetual growth and create sustainability and mutual aid. It is our only hope of fairness and justice for all our people, it is the only hope of saving our home, the planet.
